## Ketron HTML-Help

As many of us know, the ketron help system (HTML Help, delivered with the keyboard or expander), is's not simple to find a solution by searching for special items.

Inspired by friends in facebook, I recycled a app, I developed for another html-project, and made it to fit for ketron help.

So I could build a frame system with extended links by items and added s search index.

The help includes the origin ketron help files,

As you can see in the screenshots below, the completed with the navigation sites.

The screenshot displays the Ketron HTML Help system interface. On the left, there is a 'Home' section with a search bar and a 'Chapters' list containing items like '4 4 VOICE SET', 'A ARABIC', 'B BENVENUTI', 'C CONNESSIONI CONTROLS', 'D DISK EDIT', 'E EDIT MICRO1', and 'F FILTER'. Below this, there are links for '00 SPECIFICATIONS', '01 WELCOME!', '02 CONNECTIONS', and '03 FRONT PANEL'. In the center, there is a logo for 'SDS KETRON'. On the right, there is a 'Suchbegriffe A-Z' section with an alphabetical index and a search-INDEX section with links to various help topics like '15\_controls', '02\_conneSSIONi', etc.

# KETRON Help - Extended Help System

- **Start:** You have an overview with links in the head area to [Home] [Search] [A-Z] [Chapters]
- **Home:** Start on top whenever you like it.
- **Search:** Opens the main site with search indexes. You choice the initial letter of the term, you would like to search. Ther you got a search-index with all terms, beginning with the letter you have selected. On thes site you see these terms and below each term the links to the help sites, that contain these term.
- **Chapters:** Here you have a list of chapters / sites by name (A-Z). On header-area you can quickly jump to items that begin with a special letter.  
The chapters are ordered by A-Z.

If you would like to see the ketron order by the chapter-numbers, click on Home and you got the entry site with the ketron chapters.
